

ELECTRONIC SUBCONTRACT SERVICES

# Taking Care of

From subcontract assembly to total design, procurement and manufacture, Mowden Controls offers you a flexible and friendly service tailored to your requirements.

With over 40 years experience in the electronics industry, our expertise, our drive and commitment is at your command.

Specialising in small to medium volume manufacture, we are working hard behind the scenes to ensure you get the service and quality product you need.

## ELECTRONIC DESIGN

The products we design are as diverse as our customer base. Working closely in partnership with customers means that we can provide exactly what you need, when you need it.

... PROCUREMENT ... SURFACE MOUNT ASSEMBLY ... CONVENTIO

At all times our thoughts are centred on you, the customer; your specification, budget and time scales. Whether your requirement is product design, enhancement, or bringing your own designs to manufacture, our engineering team will provide the right solution for you.

## MANUFACTURE

From automated surface mount to conventional assembly techniques, our manufacturing facilities are utilised flexibly to optimise process flow and provide dependable, on time deliveries.

Offering a turnkey service, we will happily quote for full provisioning of material required for your product.

## Taylor-Wharton

Harsco

DESIGN AND MANUFACTURE  
OF INTELLIGENT CONTROLS

Harsco GmbH is the European division of Taylor-Wharton Inc, an international supplier of cryogenic storage equipment. Mowden has worked closely with Harsco for many years designing and manufacturing a range of intelligent controllers for their products.

Excellent communications and continuous design developments incorporating the latest technologies are crucial in our partnership with this customer.

## Photonic Science

N A L ...

... DESIGN

Photonic Science is a high technology manufacturer of scientific detector systems covering the range of visible to x-ray and neutron detection. The camera technology offered is wide ranging, from CCD, CMOS to image intensified systems.

"We have worked with Mowden Controls for several years and has found them to be responsive and reliable suppliers of PCB's. They are quick to advise of any issues that may occur regarding design and/or manufacture and take prompt action when design changes are required".

## Tracerco

INTRINSICALLY SAFE  
ELECTRONICS MANUFACTURE

Tracerco is a global organisation that provides advanced process diagnostic and specialist instrumentation to the process industry which reduce operating costs, optimise production and minimise shutdown periods. These products and services are delivered to the process industry through a world class operations team.

Intrinsic safety plays an important part in these industries. Mowden is licensed to manufacture BASEEFA and ATEX certified equipment.

"Mowden Controls are our longest serving equipment manufacturer and we rate them the best. Their systematic approach to production and attention to detail is reassuring to us and our customers.

They deliver on time too."

Quality Manager - Tracerco

## PARTNERSHIP

Establishing a close partnership with you is our aim.

There is no typical customer so our flexible structure is tailored to your individual requirements.

Only by fully understanding your needs and priorities do we provide the most effective solution for you. In fact, we work so closely with our customers that you have the same control and reliability as in-house production, plus all the advantages of outsourcing, leaving you free to concentrate on your core business.

We never forget that, through your future success ours is also assured.

## QUALITY

ISO9001 is only the beginning of our commitment to quality.

... BOX BUILD ... TEST ... DESPATCH ... THE TOTAL SERVICE ...

# Electronic Requirements

Every one of our highly trained and experienced team is very conscientious and aware of the importance of paying attention to detail which in turn results in the high quality of the product and service experienced by you.

## MARKET SECTORS

Typical but not exclusive industrial sectors:

- Instrumentation
- Oil, Gas and Chemical
- Print and Packaging
- Measurement & Control
- Power Management
- Medical and Laboratory

By working  
in close  
partnership

With a successful  
combination...

...of the right  
personnel

Our friendly, helpful team are  
ready to meet your electronic  
subcontract requirements.
