Environmental Policy Statement

Mowden Controls Limited is a high quality manufacturer in the design, development and/or manufacturer of electronic controls, systems monitoring and measuring equipment including proto-typing, sub-contract assembly, inspection and testing.

Mowden Controls Limited recognises and accepts that a commitment towards the preservation for the environment is a fundamental part of our business strategy and operating ethos.

Mowden Controls Limited is committed to minimising our impact on the environment by setting and reviewing objectives with a view to continually improve in the identification, control and prevention of pollution.

Formal Environmental management is undertaken through a bespoke and tailored environmental management system (known as "EMS") whose scope includes "THE DESIGN, DEVELOPMENT AND/OR MANUFACTURER OF ELECTRONIC CONTROLS, SYSTEMS MONITORING AND MEASURING EQUIPMENT INCLUDING PROTOTYPING, SUB-CONTRACT ASSEMBLY, INSPECTION & TESTING".

Specifically, and with regard to environmental matters, Mowden Controls Limited will:-

- 1. Comply with all relevant UK & EU legislation & other requirements deemed applicable to all company activities and processes;**
- 2. Control, to the best practicable level, effects on the community from water pollution, atmospheric emissions and other aspects of its activities, taking into account views of affected interests and responding to incidents with understanding and care;**
- 3. Ensure that all persons working for or on its behalf are aware of the responsibilities in accordance with this policy and provide suitable training to improve environmental awareness and allow for accountabilities to be defined;**
- 4. Maintain a recognised Environmental Management Systems ("EMS");**
- 5. Committed to responsible energy and resources management and environmental sustainability;**

This policy statement will be periodically reviewed to ensure that it remains as accurate to the current requirements of the business.
